

# WEEE 'Take Back' Disposal Scheme

## You can recycle your old electrical items with us.

If you're buying a new electrical item, we will recycle your old one **for free**

### Why recycle?

Unwanted electrical equipment is the UK's fastest growing type of waste.

Many electrical items can be repaired or recycled, saving natural resources and the environment. If you do not recycle, electrical equipment will end up in landfill where hazardous substances will leak out and cause soil and water contamination – harming wildlife and also human health.

### We can help

In accordance with WEEE Regulations we are pleased to offer our customers the chance to recycle their old electrical items such as batteries, light bulbs and portable mains power appliances.

We will recycle the following items on a like-for-like basis when you buy our products. Please ensure you return your items within 28 days of your purchase.

**NB. Consumers are responsible for the return postage costs for purchases online.**

Please return items to:-

**Amourelle Products  
Unit 16 James Scott Rd  
Halesowen  
West Midlands  
B63 2QT**

**NB. We do not recycle electrical items which form part of a fixed installation, i.e. Garage door operators and their accessories.**

### What is WEEE?

The Waste Electrical or Electronic Equipment (WEEE) Directive requires countries to maximise separate collection and environmentally friendly processing of these items. In the UK, distributors (including retailers) must provide a system which allows all customers buying new electrical equipment the opportunity to recycle their old items free of charge. Those establishing their own take-back scheme must as a minimum offer all customers buying new electrical equipment free take back of their old electricals on a like-for-like basis.

Find more information on WEEE recycling, and locate your local recycling centre, at [www.recyclenow.com](http://www.recyclenow.com).

To remind you that old electrical equipment can be recycled, it is now marked with a crossed-out wheeled bin symbol. Please do not throw any electrical equipment (including those marked with the crossed out wheeled bin symbol) in your bin.
